I really want to level up my fishing level because it's my lowest and I am trying to get all 25s. I'm currently level 21 fishing have access to a Shredder, Rod of Legends, Flying Fish and Squid pet. And can craft every bait typeSo knowing all that what is the best combo to maximize my xp gain? (Without stating the obvious fishing 3 boost)Edit : I forgot to include that I want to do it all by hand, no minions This is the complete Hypixel Skyblock guide for complete Trophy/Lava Fishing. Everything you need is in this one video. Also. This article has been assembled by members of the community as a helpful resource, instructing players on SkyBlock. It is NOT official information, and may be out of date. If you see missing, incorrect or out of date information, please help by contributing to the page. This is an overall guide for the skill Fishing including ironman/stranded gamemodes. Fishing Progression[] Minions[] If you don't want to level up early game fishing by hand, minions are a great option. Use T11 Clay Minions if you are on a budget, and T9-11 Fishing Minions if you're slightly richer. Pets[] You should use a Dolphin Pet if you're early game and swap to Ammonite Pet once you have a decent Fishing, Mining and Heart of the Mountain level. However, if you wanted to go all out on fishing, you should consider pet swapping with a MythicFlying Fish Pet and a Dolphin Pet. The pet item you should have equipped on your pet should always be a Washed Up Souvenir unless its level is low. In addition, if you can afford to spend coins on a Legendary Squid Pet for more xp, you should do so. Pet Swapping[] Since + Fishing Speed has been changed as of the 0.13.1 update, the Flying Fish pet has now passed the ammonite in fishing speed. However, the Flying Fish pet gives little to none a Sea Creature Chance. Therefore, pet swapping for fishing is available again. All you have to do is just set up two pet rules like the one below. The ideal pet rule for pet swapping would be When: You throw a fishing hook; Equip Flying Fish Pet (needs a random exception) attribute) When: You throw a fishing hook; Equip Dolphin Pet The Flying Fish and the a Sea Creature Chance from the Dolphin. First Levels There are many events that involve fishing such as the Jerry event, Fishing Festivals, and Spooky Festivals. All these give more xp than normal fishing except for the jerry event. Ideally, you should start your fishing journey during fishing events when Marina gets elected (preferably 3 perk). Early game fishers should fish in the @ Birch Park for some squids to start out. Armor[] Getting Legion on your pieces is optional. For armor pieces with Attributes, Blazing fortune and Fishing Expertise is a pain for to level up, but what people don't know is that killing other's sea creatures also increase your rod's expertise counter too. Therefore you can go lobby hopping and ask people if you can kill them. Fishing 27 is the level you expertise counter the fastest since Magma Slugs count as 4 sea creatures. In addition, if you don't want to level your current rod since it is already maxed, you can put another rod with expertise in one of the hotbar slots before the rod you fish with. This will allow you to level your secondary rod without sacrificing sea creature chance and fishing speed. As of right now, there is a bug where kill with weapons that have Thunderlord and the Fire Veil Wand might not count toward the expertise counter. Ironman Fishing[] Water Fishing[] First, you should unlock the fishing minion recipe and craft some fishing minions with fish you can buy from the Fish Merchant. The first set of fishing your armor you get should be 3/4 angler with squid boots. Then, keep collecting fishing loot until you are able to unlock the salmon armor. While unlocking the salmon armor, remember to regularly buy sponge from the Builder in order to prepare for sponge armor which can then be upgraded to shark scale whenever you get enough Enchanted Shark Fin from Marina. The Winter Rod is a rod early game ironman players should aim toward, since its cheaper than the Challenging Rod and provides the same stats on the Jerry Island. Which could be useful to get gifts from sea creatures in order to obtain your first Snow Minions. Since Lily Pads can be hard to grind on ironman, some decide to just use shredder after obtaining the Challenging Rod. However, things would be different if you decide to go for the Rod of the Sea line rods. Even though upgrading will take longer but it's worth it and if you're lucky you should hit it by level 25 without minions. Lava Fishing[] Worms[] In some point of ironman progression, you would need to start worm fishing for chambers to put on your Divan Armor. Although doing this may seem inappropriate, but lootshareing worms with a good fisher is the most efficient way for you to obtain Worm Membrane. They fish up more worms than you could and they might even own a weapon with Looting V which can also boost membrane drop rates of your worms. Crimson Isle[] Lava fishing is just the same as standard but takes longer to upgrade. To get a desirable rod, upgrade your rod's attributes to at least 8/8. (Double Hook and Fishing Speed) Aim for trophy fishing before Fishing 27 to unlock bronze tier so it's easier to get later tiers in the future unless you have a good mage weapon by then. Going for a trophy fishing rod isn't really suggested unless you really don't mind grinding 20% more Magmafish. yourself. Submerged Shark Scale Armor is slightly better for α Sea Creature Chance but the mixed set also gives bonus damage to © Crimson Isle sea creatures. Stranded Fishing[] Stranded Water Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing is extremely rewarding and is fundamental for stranded Fishing[] Fishing and is fundamental for stranded Fish The first thing stranded players should do is getting 1. Water bucket trade (Clownfish II), every weapon for sea creatures works fine, just set your spawn near them and kill them. Create a bigger pool and fish until you unlock the 2. Prismarine Blade (Prismarine Shard II), This weapon does 200% more damage while in water, making tanky sea creatures more approachable until you can get a high-damage tactician sword. Before starting to fish seriously be sure to have at least 3. Mercenary Armor (170k) and a good weapon but most importantly a weather stick: 4. Weather Stick (Redstone V) gives you 5 SCC and a lot of fishing speed during rain and it s basically free, The rain doesn't work exactly like the park but still gives a lot of stats. 5. As your first rod after the basic one, you can get a Winter Rod for 5 enchanted emeralds from a trade and use it until you unlock the 6. Challenging Rod. From now on always use baits and progress until 7. Rod of Legends, most likely fishing during events; Salmon armor is the best armor before diver and since shark scale armor is very unrealistic without the builder npc. You will be missing some sea creature chance but having free rain at all time is so overpowered that fishing is unironically easier than mining and combat. There are still a lot of missing sea creature chance items like enrichments from recombed talismans, Washed-Up Souvenirs, reforge stones and beacon perks that aren't available. Therefore going over Fishing 30-32 isn't recommended until a new update is released and those missing items are added. Stranded Lava Fishing[] An example setup for Lava Fishing on Stranded. After the Crimson Isle update, Lava Fishing on Stranded is only possible by abusing a bug. To do so, you need to have water and lava next to each other in such a way that the water will push the bobber into the lava when something is caught. push the bobber into the lava, but it will be rubber-banded back into the water. When the bobber gets pulled down, the water will push the bobber into the lava without it being teleported back. At this point, you can reel in the fishing rod at any point; it's not time-sensitive like regular fishing. This method is not particularly consistent, but it is the only way to increase the Netherrack and Magmafish collections. Upon reaching Fishing 27 and Magmafish IV (1000 Magmafish), you can craft a Magma Rod, which can be used in lava like normal without abusing bugs. Reaching the collection milestone is made easier by Silver Magmafish, which has a 0.2813% chance to be caught from Lava Fishing and increases the Magmafish collection by 80. Also, it's interesting to note that if you remove the lava from this setup, reeling in the fishing Pets [] Fishing Pets Blue Whale Pet - Bought from Oringo the Traveling Zookeeper during Traveling Zoo Dolphin Pet - Achieving Fishing Milestones Flying Fish Pet - Rare drop from Sea Emperor Squid - ??? Baby Yeti - Killing yetis Stranded Fishing Tips[] 1.Deep ocean biome (Ink Sac IV) gives +5 sea creatures doesn't give fishing xp or loot 3. Suffocating sea creatures doesn't give fishing xp or loot 3. Suffocating sea creatures doesn't give fishing Xp or loot 3. many sea creatures can't hit you if you're 2 blocks above them 5. For other creatures like Phantom Fisher, Yetis, Great White Sharks and Grim Reapers, trap them in a 1x1 (use InfiniDirt[™] Wand to stay away from them) and suffocate them with gravel/sand, remember to give them a hit or you won't receive fishing xp (you will still get drops) 6. Always use baits, they always pay off, during events (jerry/spooky/marina) but also while squid fishing, it's so easy to craft them and you can make more while fishing, it's so easy to craft about 12 stacks of carrot bait and spam use it with shredder to max out the strength on it pretty quickly 8. I would always recommend fish bait outside of any event and you can just use the respective bait dependent on event, shark for shark, spooky for spooky, ice for jerry fishing, but then comes whale bait, you're bound to get a ton of it off treasure drops and I would suggest that whale bait, you're bound to get a ton of it off treasure drops and I would suggest that whale bait only be used in certain events you want to prioritize 9. If you do suffocate mobs, definitely make sure you at least hit it once cause those drops are dumb and can easily clip through blocks and probably void themselves 10. Frosty(mob) and Frozen Steves have a small chance to drop green as well as rarely red Gifts 11. Night Saver makes grinding for Bait Ring much easier because of the night squids. Dirt Fishing Techniques[] Required item(s): Dirt Rod Recommended bait(s): Fish Bait Dirt Fishing is the only kind of fishing that doesn't require a player to fish in liquids. The only use for dirt fishing is to get Worm the Fish. Water Fishing Techniques[] Note: It is recommended to have at least Shark Scale Armor and a fishing pet with a decent level for most of the techniques. XP/Barn Fishing (Legacy)[] Required item(s): Legendary Squid Pet Recommended bait(s): Whale Bait In order to start fishing, you would have to travel to the Spider's Den since it is the only place with natural rain that covers every island. You will then have to travel to the End to start fishing. The reason for this is because there is water at a pretty high place and a platform under to keep the Sea Creatures. For the best XP gaining rate, an Ammonite Pet paired with Whale Bait is recommended. After the addition of pet rules, regular fishing is better than barn fishing for XP. Therefore this fishing method is not viable anymore. Squid /Ink Fishing[] Required item(s): Squid Hat, Legendary Squid Pet, Weapon with Looting Recommended bait(s): Fish Bait for day time, Dark Bait for day Squids and Night Squids in order to obtain large amounts of Ink Sacs. This fishing style often happens in The Park with Vanessa's rain on. After some testing, using a Soul Whip to fish up Squids and then kill them with melee damage was the most efficient way to Ink fish. (Since the 0.13 update, you cannot throw a hook then swap from a normal rod to soul whip. Therefore any weapon with looting can replace soul whip now.) If you have about 90 α Sea Creature Chance, a fishing armor helmet would be better than a Squid Hat only affects normal squid spawn rates instead of night squid spawn rates. Sea Creatures directly with a hook would nullify the looting enchant from working. This is when Pet Rules come into play. Setting up a Pet Rule like the one under would maximize your ink sack gaining rates. (Ty tyleriffic for this idea) Condition 1 When: You enter Combat; equip Squid Pet Condition 2 When: You throw a fishing hook; equip Flying Fish Pet Yeti Fishing[] Required item(s): Auger Rod, * Magic Find setup Recommended bait(s): Ice or Whale Bait Yeti fishing is a kind of fis Steve, Frosty (Mob), etc. One of these creatures stands out from all of them, which is the Yeti. A Yeti is a Legendary Sea Creature that has a pretty low chance to be fished up. On killing Yetis, they have a slight chance of dropping a Baby Yeti Pet, and using a * Magic Find setup can increase the chance of it dropping. Spooky Fishing[] Required item(s): * Magic Find setup Recommended bait(s): Spooky or Whale Bait Spooky fishing can be done whenever the Fear Mongerer appears in the Hub Island, which is one hour after. During this period you can fish up some Spooky Sea Creatures such as Werewolves and Scarecrow. Unlike normal Sea Creatures, they drop Candy when killed. However, this isn't the main source of money while spooky fishing. There are three Sea Creatures, the Phantom Fisher, the Grim Reaper can also drop Soul Fragment and Vampire Fang which are pretty high in price. The best location for spooky fishing is the Spider's Den, for the rain that occurs every hour for 20 minutes. Shark Fishing [] Required item(s): * Magic Find setup Recommended bait(s): Shark Bait or Whale Bait Shark fishing festival perk, sometimes even Foxy and Jerry can have this perk. This kind of fishing is very similar to spooky fishing except that you don't fish up Grim Reapers but Great White Shark. This sea creature drops Great White Shark Teeth and Megalodon Pets. Even though they are lower in price, shark fishing is still a good way to make money because of how often you fish up Great White Shark Rabbit Fishing[] Required item(s): Rabbit Axe, * Magic Find setup Recommended bait(s): Carrot Bait Rabbit fishing is currently the only way to obtain Lucky Clover, that gives a huge boost in * Magic Find. It has a pretty high value on the Auction House. Nonetheless, the drop rate of Lucky Clover Cores is very low. The Carrot King is the Sea Creature you want to fish up to get money. The Rabbit Axe is often used to get money. The Rabbit Axe is often used to get money. The Pond on the Hub Island behind Guy makes it impossible for players to fish up Sea Creatures. This method is a good way for Ironman players who are in need of coins. You could also use the hunter armor introduced in the 0.13 update to avoid any sea creatures. Corrupted Fishing[] Required item(s): Totem of Corruption Recommended bait(s): Fish Bait People have been struggling with getting obfuscated 1 trophy fish for their trophy fish for their trophy fishing quest because they thought using corrupted bait was the only way to obtain them. However, with the help of a Totem of Corruption, any sea creature can drop obfuscated 1 trophy fish, even the ones from water. All you have to do is just place the Totem of Corruption and start fishing. I would recommend doing this in the park with rain since it provides the maximum sea creatures in the same amount of time. Dungeon Fishing[] Required item(s): Phantom Rod Recommended bait(s): Whale Bait After the 0.13.1 update, Fishing speed has officially become a player stat. Therefore, it can be buffed in the The Catacombs. Making the Phantom Rod the fastest water rod of all time. Every catch would be like Flash processing, making it faster than fishing [] Required item(s): Lava rods Recommended bait(s): Fish Bait Recommended bait(s): Fi fishing method because of how popular its variant, worm fishing, is compared to it. It is also considered the fishing method that makes the least money. You can do lava fishing by fishing in lava sources anywhere except for those you can fish up Flaming Worms in. Now you'll fish up Lava like the worm fishing one would work too. If you don't want to gain heat while lava fishing and you like to stand in the @ Magma Fields for no reason at all, you could use a Bal Pet with a Washed-Up Souvenir equipped. It may not be the best for + Fishing Speed or α Sea Creature Chance but the - Heat immunity it provides is very useful. Pet rules like ones mentioned in squid fishing work fine for lava fishing too.(Ty GandalfStirbt for this idea) Condition 1 When: You enter Combat; equip Flying Fish Pet Worm Fishing[] Required item(s): Weapon with Looting, Lava rods Recommended bait(s): Fish Bait Recommended attribute(s): Fishing Speed, Double Hook And now we will get into the most known fishing money-making method, worm fishing. In order to worm fish, you would need to find a lava source in the Crystal Hollows above y=64 in the Precursor Remnants. After you found one, build a box around it and dig a two-block deep hole behind the place you will be fishing. After fishing up some Flaming Worms, you should kill the Worms with a weapon enchanted with a high-level of Looting to get the most drops from them. You should be killing every 30 worms (around 5 minutes) or when with a lootshare party, every time you hit the sea creature cap, 60 sea creatures. In order to lootshare, I would advise corrupting them first, then everyone who loot-shares use an ace weapon to damage them (e.g. dreadlord sword). In the end, let the player with the highest looting effects. There is currently a bug in the crystal hollows where you can occur golden fish while fishing . One solution to this problem is to make two separate pools so it gets stuck in one. You can also just aim a bit upward or downward so you can throw the hook. Barn Fishing (Crimson Isle)[] Required item(s): Eava rods, Damage gear/Thunder Armor, Weapon with Looting Recommended bait(s): Fish Bait Recommended attribute(s): Fishing Speed, Double Hook The Crimson Isle sea creatures have the highest hp of all. Before you have Magma Lord armor, it is recommended to fish with a damage set. It is advised to use a Fire Veil Wand to kill the lava sea creatures if you're on a low budget, otherwise just use a Hyperion to skill the sea creatures. Just like the original barn fishing, you need to find a cliff where you can store your sea creatures, then start fishing. I would recommend killing the sea creatures every 5 minutes or whenever the sea creatures every 5 minutes or whenever the sea creatures. Magic find also buffs the chances for fishing loot, so getting the blazing fortune attribute is recommended. For the maximum loot gain, use these pet rules: Condition 1 When: You enter Combat; equip Flying Fish Pet XP Fishing (Crimson Isle)[] Required item(s): Lava rods, Damage gear/Thunder Armor/Magma Lord Armor Recommended bait(s): Fish Bait Recommended attribute(s): Fishing Speed, Double Hook In order to get the most xp out of sea creatures, you wouldn't have any time wasted just to kill the sea creatures. The recommended weapon for this would be a Midas Staff because of the higher damage per hit than a hyperion. Note: you would have to move constantly For the maximum xp gain, use these pet rules: Condition 1 When: You enter Combat; equip Flying Fish Pet Trophy Fishing[] Required item(s): Lava rods, Hunter armor Recommended bait(s): Hot Bait, Fish Bait Recommended attribute(s): Fishing Speed, Trophy Hunter, Fisherman The 0.13 update introduced us a new fishing aspect, Fisher Ranks. In order to be able to use the best hunter armor, you would need to get every level of every trophy fish fished up. the ridiculous stage where you need to deal with sea creatures without hunter armor, you should be trophy fishing level 27 since, Magma Slug, the first crimson isle sea creature is available after hitting fishing 27. It is also recommended to be in a lobby where the volcano hasn't erupted yet so gushers can't be fished up, making other trophy fish chances higher.
